

The Boston Test

THE BOSTON TEST is a *biometric test based on movement*. There are 3 parts to the test. Each part should be completed on one or more separate sheets of plain white unlined 8.5" x 11" paper. PLEASE NOTE: The speed of your movements is very important. You should take the test at your natural or fastest speed. Slowing down your movements for beauty or legibility is to your disadvantage.

Part One: Shapes

On a single sheet of plain white paper, please draw (by freehand) one or more of each of the following shapes: a triangle, a square, a circle, and a ladder. They can be of any size. Do NOT trace the shapes or use a ruler, straight edge, compass or other device. At the bottom of the page, please print your name, phone number, and email address.

Part Two: Numbers

On a single sheet of plain white paper, write 10 different numbers of any size. At the bottom of the page, please print your name, phone number, and email address.

Part Three: Words

On two or more sheets of plain white paper, please copy the following paragraphs twice, once in your (cursive) handwriting and once in your printing. Remember, speed is more important than beauty or legibility.

Tommy Lasorda says, "There are three types of baseball players those who make it happen, those who watch it happen, and those who wonder what happened."

B. C. Forbes once said, "Study the conspicuously successful business giants and you will be struck by the fact that almost every one of them encountered inordinate difficulties sufficient to crush all but the gamest of spirits. Edison went hungry many times before he became famous."

Willie Mays says, "It isn't hard to be good from time to time. What's tough is being good every day."

Mr. Hamilton Holt says, "Nothing worthwhile comes easily. Half effort does not produce half results, it produces no results. Work, continuous work, and hard work, is the only way to accomplish results that last."

Please sign your name twice (OPTIONAL) at the bottom of each page . . . and print your name, phone number, and email address.
